

Need Firewood?

**Know Someone
who does?**

**Want to have a
splittin' fun time?**

When Potter Tree came in late January to remove several trees from our Memorial Garden area, we asked them to leave sections for us to cut and split for firewood. They did, and thanks to Dan Wilfrid and his chain saw, about half are cut to length and ready for splitting. Here's where you come in:

Do you know someone who heats with wood, lives on a tight budget and would appreciate wood for next winter?

Do you have a stove or fireplace and could use some good hardwood for burningmaybe in exchange for a nice gift to the church?

Whether or not you want any yourself, do you have a wood splitter or an axe and want to get some wood splitting exercise this spring in the church back yard?

Would you like to take some pre-split logs home and split them there?

Contact Dan Wilfrid (774-364-1449) if you answer "yes" to any of the questions above.
